NAK LOSE FAT?

Tak payah stop makan nasi! 🍚

Here's what to focus on instead.

THE COMMON MISTAKE

MOTIVATION SAHAJA TAK CUKUP.

Ramai orang start diet dengan semangat.

- ~~Cut rice~~
- ~~Cut favourite foods~~
- ~~Follow extreme rules~~

Tapi bila kerja busy, Raya datang, routine terus lari.

You need habits that survive real life.

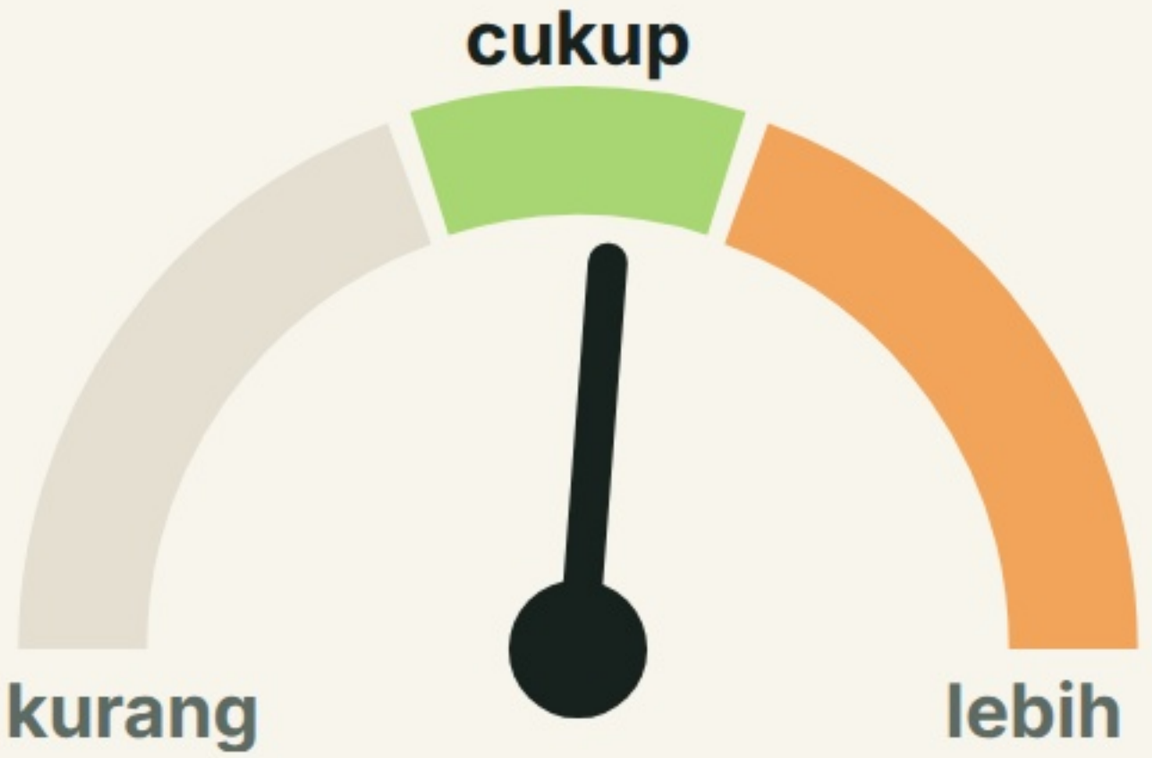

01

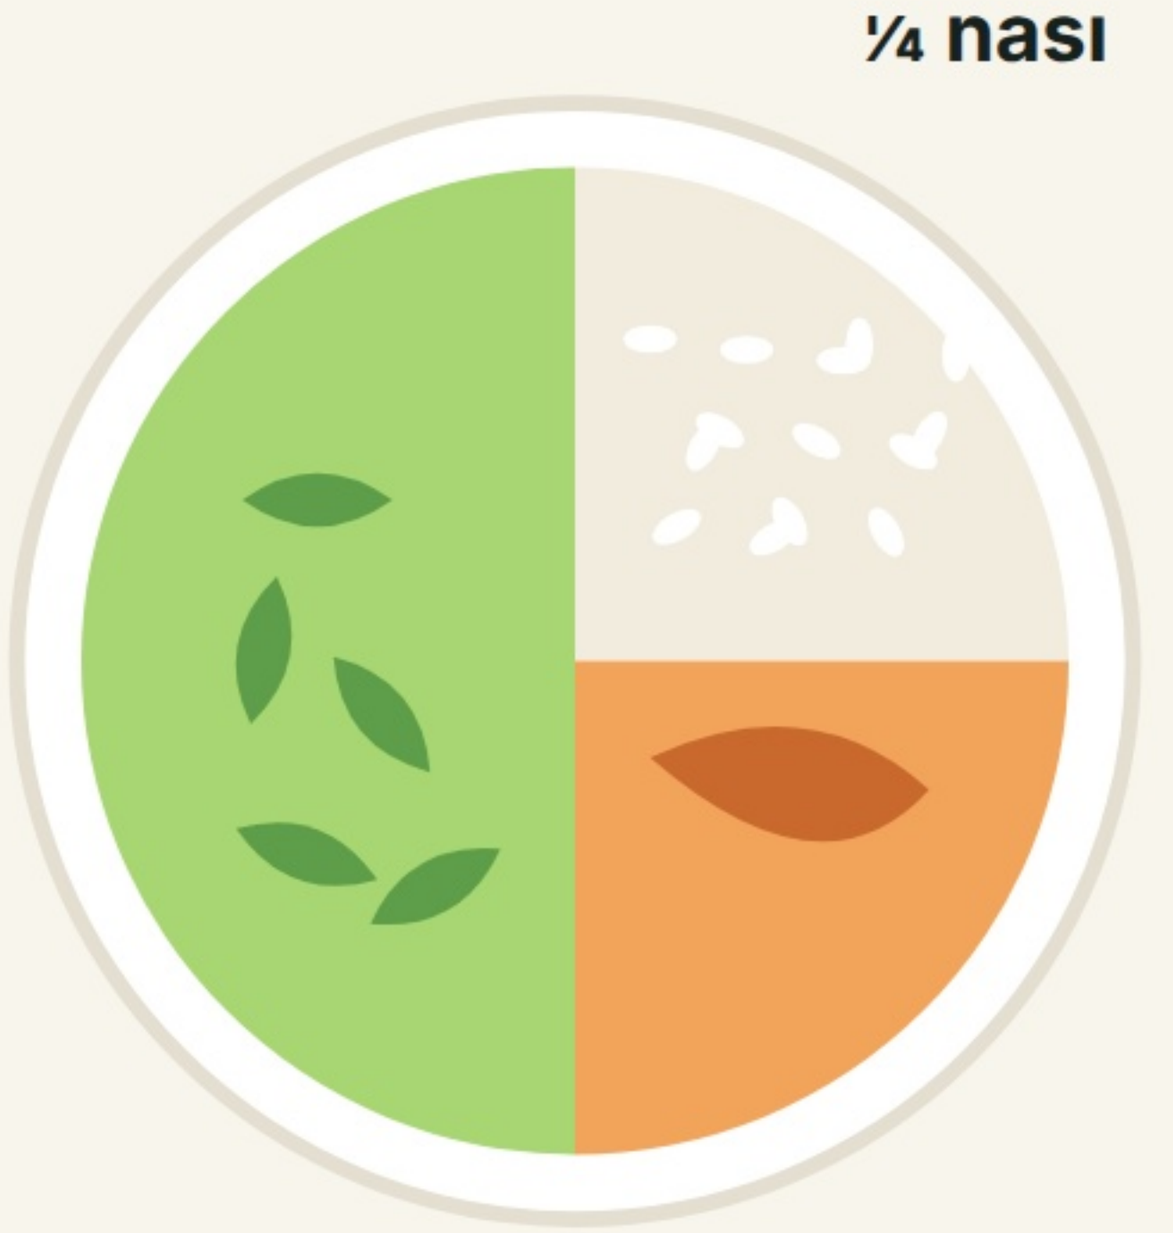

FAHAM CALORIES

Understand how much food your body needs.

You don’t need to blindly cut out all the foods you love.

Awareness helps you make better choices.

02

PROTEIN + FIBER

You can still makan nasi!

Focus on balanced meals with enough protein and fiber.

This makes meals more satisfying.

03

BUILD REALISTIC HABITS

Kerja busy? Family dinner? Makan luar?

Your eating habits need to fit your actual life.

Choose routines you can repeat.

Kerja busy

Family dinner

Makan luar

04

ADA BACKUP PLAN

Motivation datang dan pergi.

Bila routine lari, you need simple habits to fall back on.

Plan A Routine biasa

Routine lari Busy, Raya, sakit, outstation

Plan B 2–3 simple habits je

Sambung balik Next meal, bukan next Monday

Don’t let one difficult day turn into giving up completely.

ENJOY YOUR FOOD. BUILD CONSISTENCY.

Sustainable fat loss works better with habits you can maintain.

You can enjoy your favourite foods while working towards your goals.

SAVE THIS FOR LATER
